

Mr Shanahan's LEARNING-FROM-HOME classes of the week-

Week beginning 13th September - 17th September

Science 9W	Mr Kendrick	I have been incredibly impressed with 9W over this lockdown. They have always been an awesome class, but during lockdown they have been incredible. Really high engagement. Submitting high quality work. Thoughtful answers to questions.
English 10C	Ms Keenan	First class to read over 1,000,000 words in Reading Plus - an awesome effort.
Physical Education 101	Mr Howe	Awesome engagement from the class this week with their online escape room challenge to free Spartacus. The students were put into groups and had to connect with each other to organise a time to create a video call, then work together to solve the clues to escape the room. I'm very happy that they took the time to connect with each other and safe to say all groups freed Spartacus, well done!!!
Te Reo Maori- Team Fried Bread!	Whaea Snowden	Ka mau te wehi ki a rātou. Outstanding class engagement from all participants who followed the Learning Intentions exactly and the Success Criteria was Achieved with Excellence. Participants were well prepared and excited about this lesson. Special mention to Kiriwai and Ashlee for all their pre and post planning for this event. No reira e ai ki te whakatauki o te kura "Whaingā hei tūtuki mā tātou katoa". Achievement for all.
Social Studies 9P	Ms McEvoy	9P have been amazing over this lockdown. This week, they completed the work within two days of it being posted, and they are ready to move on to a creative project, being ahead of where I expected. They truly are a wonderful and resourceful class that gives it their all. They have been truly amazing.
Samoan Year 9	Ms Passi	High level of engagement, hard working, turn up to scheduled zooms, asking good questions and completing the set work each week. These students have been amazing, despite learning from home, they have continued to engage and produce a fantastic level of high quality work. They have also been amazing with their awesome student teacher Miss Pelite, exemplifying our school values and many are not shy from getting up to sing, dance and talanoa using everyday gagana Samoa. Malo lava le taumafai!
Health 101	Ms Owen	The level of work and engagement that is being produced by this class during online learning is awesome. Students are really working hard at trying to complete all of their tasks set out for them. Sexuality isn't an easy subject to learn through online learning, but the students are really producing excellent work!
Drama 9PFA	Ms Bartlett	We organised a "Friday Ball extravaganza" and invited other teachers of PFA to attend. The class were super cute and all got dressed up- some had even made their ball gowns!!! Kahoots were played, catwalks were minced and there was a LOT of talking talking.....and more talking...all at the same time....which they all seemed to understand somehow??
Service Academy 303	Staff Fugmann & Staff McGrath	We have been running a speaking and listening assessment for this class while learning from home Many students have participated in learning the skills and then performing them on a 45 minute Google Meet. All students have passed, gaining the credits and developing skills in the process. Manawanui has been shown by all!
