Under the Mountain, by Maurice Gee  
Beneath the extinct volcanoes that surround the city, giant creatures are waking from a spellbound sleep that has lasted thousands of years. Their goal is the destruction of the world. Rachel and Theo Matheson are twins. Apart from their red hair, there is nothing remarkable about them - or so they think. They are horrified to discover that they have a strange and awesome destiny: only the red-haired Matheson twins can save the world from the terror that lurks under the mountain.
